A collaboration to celebrate design from the house of

vivre PANELS

A Walkthrough of Surfaces

Each layer of the artwork represents individual pieces of the collection. These panels are neither mass-produced nor are intended to be for mass consumption. Indeed, each piece has been envisioned, sketched & then designed by some of India's finest. We hope these make way to your homes and remain a silent (but charming) part of your life.

Installation Guide

Process

1

Prep-work with plywood / MDF is recommended before the construction. Please remove any kind of wall / film on the surface of the base.

2

Apply a quality adhesive on the back of the Louvers. apply a small amount of hot melt (glue-gun) on the back of the Louvers.

3

Louvers can be installed in both horizontal or vertical direction. screwing on the tongue/ interlocking space for better fixing.

4

Circular saw to be used to cut required length.

5

For corners, combine the two grooves.

Tools Required

Panel

Circular saw

Tape measure

Wood glue

Glue gun
